

## ProSource® TF Free

Allergen Free, 100% plant based, modular liquid protein for the enterally fed population.

- Free from 8 major allergens, animal products, dyes, and artificial sweeteners

## FEATURES AND SPECIFICATIONS

Kcal/mL..... 2.09

### Caloric Distribution (% of kcal)

Protein ..... 66%  
Carbohydrate ..... 22%  
Fat ..... 12%

### Protein Source:

Hydrolyzed Pea Protein

HCPCS CODE: B4155

### Appropriate for these diets:

Allergy Restricted, Vegan, Vegetarian, Religious Restriction, Lactose Free, Gluten Free, Diabetic, Fluid Restricted

Shelf Stable

Do not refrigerate

Use immediately after opening.

Shelf Life: 18 months

ProSource TF Free Liquid Protein is as thin as water and can be given directly down a feeding tube without mixing

for easy administration and less risk of contamination.

No mixing or dilution required. Easy to dispense. ProSource TF Free Liquid Protein will not clog a clean well maintained feeding tube.

Not recommended to be added directly to enteral formula.

**Allergen Free:** Egg, Fish, Milk, Peanuts, Shellfish, Tree Nuts, Soy, and Wheat

Not a sole source of nutrition.

### A Medical Food

Use under medical supervision.

**NOT FOR PARENTERAL USE**

### Halal Certified

## FOR THE DIETARY MANAGEMENT OF PROTEIN DEFICIENCY

ProSource® TF Free Liquid Protein is designed for tube feeding administration to meet the protein needs for critical illness, protein energy malnutrition and protein deficiency with good GI tolerance and greater patient application.

Recent studies indicate that critically ill patients require a minimum of 1.2-1.5 g/kg/day of protein and as much as 2+ g/kg/day of protein.<sup>41,42,43</sup> Most enteral formulas available are able to supply adequate calories, but they are unable to meet the protein target without overfeeding. Subsequently, tube fed patients, often require a protein supplement to meet their individual protein needs, but not all protein supplements are appropriate for all patients.

### Dosing and Administration

**Tube Feed Dosing:** ProSource TF Free can be administered via syringe without mixing or diluting with water. Flush tube with 30 mL of water before and after administration. ProSource TF Free will not clog a clean, well maintained tube.

**Do not mix with tube feeding formula.**

Appropriate for NG-tube, G-tube and J-tube.

**Ingredients:** Water, Hydrolyzed Pea Protein, Malic Acid, Citric Acid, Maltodextrin, Natural Flavors, Potassium Sorbate and Sodium Benzoate (preservatives).

Lactose and Gluten free.
